When designing and producing our art hanging systems, we place great emphasis on functionality, user-friendliness, and careful material selection.

LIVING ROOM

style & restyle

05

the rail connects to
the ceiling perfectly

to the left or the right
or on the other wall?

style & restyle

Your style is unique and you decorate your interior accordingly. Picture hanging systems are both practical and simple to use. A rail on each wall will allow you the flexibility to move your pictures around whenever you want - thereby easily creating a whole new 'look' to each room.

LIVING KITCHEN

wining, dining & organising

07

a herbel plant, or the
weekly planner on the wall

wining, dining & organising

Is the kitchen the central room in your house? The Info Rail (see page 21) is incredibly handy for in the kitchen: think about all those documents and notes you have to keep or shouldn't forget. Place your grocery list, invitation or drawing in the Info Rail. It is not only practical, but it also gives an original touch to your kitchen.

KITCHEN

live & experience

09

the picture hanging
system is mounted
behind the cornice

live & experience

The addition of cornices between wall and ceiling perfectly finish your rooms and adds style to your decoration. Our flexible hanging system can be easily mounted behind these cornices so they are not visible and do not interrupt your finish. However, they still give you the freedom to decorate your walls however you wish without damaging them with marks of holes.

HALLWAY

warm welcome

11

use the Stop-
per Set to hang
frames on sloping
walls

(dream) vacation
destinations, or
memories of a trip

warm welcome

The entrance or hallway of your home is the perfect place for family photos. Using the hanging system in this room, you are able to update your photos whenever you wish - adding to, or replacing with new ones from recent holidays or special occasions

KID'S BEDROOM

brighten your wall

13

you can easily
hang the frames
and change the
display yourself

brighten your wall

Colourful, cheerful & practical - that's the perfect kid's room. A place where your child likes to spend time doing his /her own thing. The hanging system is great here as you can feature your child's artwork. You can also brighten up the room by painting the rail in the colour of your choice and hangin coloured cords and cool magnets (Picture Mouse). The Info Rail is also great for artwork here.

BEDROOM

tranquillity & being yourself

15

hang attractive
frames wherever
you wish !

tranquillity & being yourself

The place where you unwind, where you can enjoy being yourself and the place where, on average, you spend a lot of your life. As well as a bed and wardrobe, you might want to place a large mirror in your bedroom, or decorate a wall with different photo frames or even a beautiful picture.

enjoy life, love living

Many people look for a hanging system for one particular painting or just for one specific room. However, the picture hanging system will subtly integrate along whole walls of a room or throughout the entire house, whilst giving you the freedom to decorate your walls however you wish, whenever you wish.

RAILS & SPECS

19

WALL
mounted

A flexible hanging system can be integrated into your interior easily and quickly with the Click Rail. By applying the wires and hooks of your choice into the rail, you are flexible in placing your wall decorations. If you opt for the primer edition of the Click Rail, you can paint the rail in the colour of the wall, due to which the hanging system will be practically invisible against the wall.

The Click Rail is available in several colours :

+

can be repainted

Technical specs:

Attach the clips to the wall
(every 40 cm)

Click and connect the rail
to the clips

Optional:

Make a whole of the rail and
wall by using kit

Optional:

The rail matches the wall
in the same colour

21

WALL mounted

The Basic Rail is a picture hanging system that is mounted on the wall. The rail has an open J-shape, which, with the aid of a cylinder hook with transparent perlon wires, makes it easy to hang pictures from other wall decorations. Depending on the weight of the picture or wall decoration, various hanging hooks may be slid onto the perlon hanging wire.

The Basic Rail is available in:

Technical specs:

WALL mounted

The Info Rail is the ideal presentation system for displaying cards, posters, drawings and photos on the wall. The rail is a practical and original addition to the wall. Assembly is simple: using clips, the rail is mounted firmly on the wall. Because of the rubber clamping mechanism in the rail, the content can be hung and changed quickly and easily.

The Info Rail is available in:

PLAFOND
montage

When wall mounting isn't possible, the Top Rail is one of the ceiling mounted alternatives. This subtle hanging system is ideal to use in combination with recessed ceilings; the Top Rail can easily be mounted on the wooden side strip. This makes the picture hanging system disappear into the ceiling, making it almost invisible. The hanging wires with hanging hook of your choice can easily be slid into the rail and positioned flexibly to decorate the walls.

The Top Rail is available in:

White
RAL 9003

Technical specs:

max.
20 kg/m

PLAFOND
montage

The Up Rail is the leading ceiling rail; this picture hanging system can easily be mounted on concrete ceilings. The beautiful, rounded shape of the rail fills the space between the wall and ceiling, therefore the picture hanging system is discrete and unobtrusive. The hanging wires with hanging hooks can be slid into the rail, which offers a flexible and easy way of hanging, moving and replacing wall decorations.

The Up Rail is available in:

White
RAL 9016

can be repainted

Technical specs:

max.
20 kg/m

25

The Deco Rail merges the cornice and picture hanging system together beautifully. The rail can be attached to the wall in a couple of easy steps. The cornice of your choice can then be mounted. The Deco Rail allows you to click a hanging wire into the rail wherever you please.

The Deco Rail is available in combination with 3 ORAC cornices in the styles BASIC, MODERN and CLASSIC.

Basic

Modern

Classic

ORAC
DECOR

Technical specs:

Mount the rails to the wall.

Apply the installation adhesive to the cornice.

Attach the cornice to the rail and against the ceiling

Optional:

Paint the cornice in the same colour as the wall or ceiling

ACCESSORIES

27

Extra

A frame or canvas will always hang more steadily if two hanging wires are used. The weight of the frame or wall decoration determines the best hook to use. For heavier wall decorations, the hanging hook with a maximum weight carrying capacity of 15 kg would be perfect. Picture Mouse is a handy and original hanging cord for displaying several documents, such as cards and photos, using magnets on a steel hanging cord. The Sloping Wall Stopper Set is ideal for sloping walls. This system allows you to use a flexible picture hanging system on sloping walls, for example, in a stairwell.
