**Risk analysis / Technical documentation according to EU 2023/988 §9 (2)\***

for products not subject to other Union harmonisation legislation within the meaning of Section 3 (27)\*\*

**General information**

Date of first version

11-12-2024

If revisions to the risk analysis have been made, date of revision

**Article photo**

(without packaging, complete set, representative items for groups)

**General article information**

Article name or article group name

timber panel beech/ timmerpaneel beuken

relevant HORNBACH article numbers\*\*\*\*

12182814 (See for complete list of article numbers Part V letter of correspondan)

relevant supplier article numbers

123135951 (See for complete list of article numbers Part V letter of correspondan)

relevant GTINs

4306516990375 (See for complete list of Gtins Part V letter of correspondan)

Brands

Buildify

**General supplier information**

Name and address of the supplier

Deli-Home Netherlands B.V., Stadhuisplein 70, 4203 NS, Gorinchem

**General description of the product or article group (Internal Risk Analysis Part I)**

A solid lumber panel made entirely of real wood with natural variety in colour and appearance. For making a shelf on the wall and/or furniture. The solid lumber panel is constructed from beech slats. The panel is sanded all around

**Essential characteristics relevant for assessing its safety (Internal Risk Analysis Part II)**

Heat resistance, material, stability, sharp edges

**Adequacy check (according to §9 (2) S.2 EU 2023/988 \*\*\*)**

Analysis of the risks potentially associated with the product in terms of possible hazards(Sheet 4)

The following points must be taken into account when analysing the possible risks: - the aspects for assessing safety (page 1) - all phases of the life cycle (page 2) - the different consumer categories (Sheet 3)

**Brief description of the risks****Risk assessment**

Yes

No

There is a **risk of confusion with food** due to smell, appearance, shape, packaging, product presentation of the item.☐☒There is a **risk of confusion with toys** due to smell, appearance, shape, packaging, product presentation of the item.☐☒The product exhibits under normal and foreseeable use a **specific increased risk** for the following groups of people: infants, toddlers, children, people with reduced abilities, pregnant women, (see Sheet 3 consumer categories).☐☒Product or a substance can cause a **negative influence on the environment** by its intentional or unintentional release.☐☒**Dangers may arise** through an influence of the product to be assessed on other products or through the influence of other products on this product.☐☒

All risks associated with the product are assessed negligible, taking into account the likelihood and extent of damage.

☒☐**RESULT:**

The risk analysis part 1 and part 2 are sufficient. Parts III and IV do not need to be completed.
