MASTON ONE® is de beste multi spuitlak ooit gemaakt en zelfs de meest onervaren gebruiker kan een verf professional worden. Maston One® kan gebruikt worden op vrijwel elk oppervlak zoals hout, metaal, steen, kunststof, glas, keramiek, gedroogde planten en karton.

Maston One® met gepatenteerde nozzle technologie en high-tech turbine klep mengt de verf effectief met het gas, net als in een professionele verfspuit. Maston One® bevat 20^x minder drijfgassen, 25% meer bindmiddelen en 4 keer meer kleurpigmenten dan de gewone spuitverf. Dankzij deze unieke technologie, Maston One® kan een oppervlakte van 3m²* dekken! De spuitafstand is beperkt tot slechts 15 cm en dit betekent een meer nauwkeurige schilderervaring met minder spuitstof en geen verspilling.

* geprimed metalen oppervlak met bijpassende kleur
